

# STUDY GUIDES

How many times have you heard yourself lamenting that you would have done better in an exam, had your teachers actually guided you better, instead of letting you get lost in pages of voluminous text books, letting you flounder like a fish out of water. Fear not, the Internet is here to hold your hand, though you would need to hold the mouse and just click away.

<http://www.sparknotes.com/>

This Website has “study aids” in categories ranging from physics and philosophy to biology and literature. Founded by two young Harvard graduates, the web site is best known for its study guides on great works of literature. Most of the guides can be used free of cost.

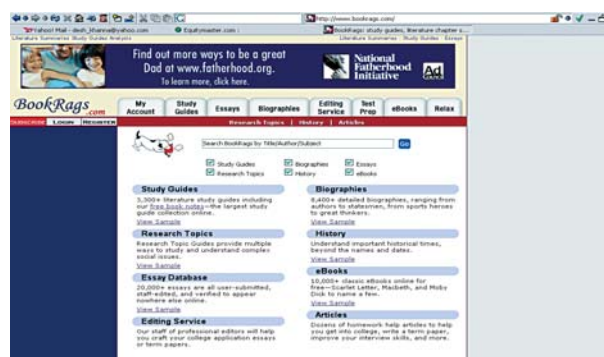

**FUN SITE: <http://yogaclass.com/>**

This summer, burn off calories, sculpt your body and sweat away the flab around your waist with a hip way of fitness—Yoga. You need not leave the confines of your home or even your workspace, or switch on the TV, to do your daily asanas. Just visit this website at your convenience to access free video-clip enhanced lessons on doing yoga, covering how to stretch, how to relax, how to breathe, workout and more. It is just the stuff the doctor ordered to rejuvenate your academics-weary soul. And it is meant for beginners.

So, what are you waiting for, meditate away your blue!

<http://www.bookrags.com/>

BookRags is a collection of free comprehensive guides to classical literature. It includes chapter summaries, character and object descriptions, author biographies and plot summaries. Summaries are designed and written so that students are still able to make their own decisions and analysis of a work independent of the summaries.
